The taxonomic sequence and nomenclature used in this list follow the Checklist of North American Birds, 7th Edition, American Ornithologists' Union, 1998, updated through the 54th Supplement, 2013 (Auk 130(3):558-571, 2013).

Nebraska Ornithologists' Union (NOU) is a non-profit statewide organization dedicated to the study, appreciation and protection of birds. The NOU was founded in 1899, making it one of the oldest organizations in Nebraska devoted to the natural sciences. Even though our name may sound a bit old-fashioned, the NOU is anything but an organization of stuffy old birdwatchers. From the beginning, its membership has included people of all ages with diverse backgrounds and experience in ornithology - from beginning birders to those with years of experience, from serious amateurs to professional ornithologists of international distinction. Then, as now, they share a common passion for the study of birds. Everyone who is interested in birds is welcome in NOU. To join the NOU, or for more information, visit us online at <http://noubirds.org/>. If you find a species not listed in this county, be sure to let our Records Committee know via our website.
